

Conveyor Toaster

W.CVT.D.10, W.CVT.D.15

The Buffet Conveyor Toaster is Woodson Starline's revolutionary conveyor. With the ability to operate as either front or rear exiting unit.

Showcasing excellent functionality and efficiency the Buffet Conveyor Toaster delivers steaming, hot freshly baked toast.

This unit accommodates individual preferences with the use of the element selection and variable conveyor speed, while still being suitable for high volume applications.
