

Hot Water Urns

FIXED AND VARIABLE TEMPERATURE CONTROL

This range of Robatherm hot water urns is available in fixed temperature and variable temperature models. Stylishly finished in brushed stainless steel, it's easy to operate and loaded with smart thinking features.

FEATURES

- Available in 10, 20 & 30 litre* capacity
- Simple on/off operation
- Long-life concealed elements allow easier cleaning inside the urns
- Fixed Temperature Model thermostat pre-set at a nominal 94°C eliminates tampering & guards against boiling which is costly
- Variable Temperature Model comes with separate variable temperature adjustment control
- Boil-dry protection ensures product longevity
- Double skin stainless steel construction ensures energy efficient operation and is safe to touch on the external walls
- Twist lock lid with steam vent
- High-grade 304 stainless steel lining
- Sturdy solid brass non-drip tap prevents scalding from water drips
- Sight-glass for water level, with graduations indicating cup capacity
