

Rollmatic Manual Pastry Dough Sheeters

Rollmatic R55 & R55B (Bench) Manual Sheeter

R55

Traditional manual sheeter. One of the most successful Rollmatic models thanks to its outstanding features and high reliability. Specialized belt speeds and aluminium handle for micrometric adjustment of rollers lowering. Optional Joy-stick and pedal lamination cycle reversal. The machine is highly compact, thanks to its upward-folding tables. Stainless steel protection grid with safety microswitch and gas piston lifting device. Belt tightening from the front by means of allen key. Suitable for small and medium shops, restaurants and hotels. Unparalleled in its category.

R55B BENCH model

Rollmatic SH6002 Manual Sheeter

SH6002

Rollmatic's best-selling manual sheeter, it stands out due to its unrivalled quality. Removable folding tables for easy belt replacement. Rocker arm and pedal lamination reversal. Optional second speed and cutting set. Stainless steel protection grid with safety microswitch and gas piston lifting system. Increased capacity and high performance with the best value for money.

Rollmatic R60 Manual Sheeter

Manual sheeter on base with castors. Folding and extractable tables. Work cycle inversion with bar and foot control, stainless steel cylinder guards with safety microswitch and gas spring. Available also with 2 speeds(or inverter) and cutting unit. Digital reading of cylinder opening (optional)

R60

Rollmatic R65 Manual Sheeter

R65

Manual sheeter on base with castors also available with in-built cutting system (R65-T). Folding and extractable tables. Work cycle inversion with electric impulse keys and foot control (supplied as option). The cylinder adjustment system (patented by Rollmatic), allows a seamless and effortless movement along with micrometric precision. Cylinder guards with safety microswitch and gas spring. Quick belt tensioning and release system. QR (Quick Release) scrapers, patented by Rollmatic. Flour drawer with safety microswitch.
