

ThermaCube™

Heated Delivery for up to 30 Minutes

Induction-charged natural convection tray circulates hot air around the food for up to 30 minutes

VaporVent™ lid eliminates condensation

Fast heat-up – initial charge takes less than 3.5 minutes; recharges in as little as 90 seconds

Natural convection tray available in two delivery bag sizes available to accommodate various types of cuisine

Easy to clean – delivery bag (without Natural Convection Tray) is machine washable; Natural Convection Tray is submersible for cleaning (not dishwasher safe)

ThermaCube Delivery System includes a charger, Convection Tray, and small delivery bag. Replacement components sold separately.
