Skyline ChillS Blast Chiller Freezer 30/30kg, 6 GN 1/1 or 600x400mm (12 levels pitch 30mm) with touch screen control and Top

Short Form Specification

Item No.

- Blast chiller freezer with high resolution full touch screen interface, multilanguage
- For 6 GN 1/1 or 600x400 mm trays. Up to 9 ice cream basins of 5 kg (165x360x125h mm)
- Load capacity: chilling 30 kg; freezing 30 kg
- OptiFlow air distribution system to achieve maximum performance with 7 fan speed levels
- Chilling/Freezing modes: Automatic (10 food families with 100+ different pre-installed variants); Programs (a maximum 1000 programs can be stored and organized in 16 different categories); Manual (soft chilling, hard chilling, freezing, holding, turbo cooling and lite hot cycles); Specialistic Cycles (Cruise chilling, proving, retarded proving, fast thawing, Sushi&Sashimi, Sous-Vide chilling, ice-cream, yogurt and chocolate)
- Special functions: MultiTimer chilling/freezing, Make-it-Mine to customize interface, SkyHub to customize homepage, agenda MyPlanner, SkyDuo connection to SkyLine ovens
- Remaining time estimation for probe-driven cycles based on artificial intelligence techniques (ARTE 2.0)
- Automatic and manual defrosting and drying
- USB port to download HACCP data, programs and settings. Connectivity ready
- 3-point multi sensor core temperature probe
- Stainless steel construction throughout
- Internal rounded corners
- Built-in refrigeration unit
- R452a refrigerant gas
- Performance guaranteed at ambient temperatures of +43°C (Climatic class 5).

Main Features

- High resolution full touch screen interface (translated in more than 30 languages) - color-blind friendly panel.
- Blast Chilling cycle: 30 kg from +90°C up to + 3°C in less than 90 minutes.
- Chilling cycle (+10°C to -41°C) with automatic preset cycles:
- Soft chilling (air temperature 0°C), ideal for delicate food and small portions.
- Hard chilling (air temperature -20°C), ideal for solid food and whole pieces.
- X-Freeze cycle (+10°C to -41°C): ideal for blast freezing all kinds of food (raw, half or fully cooked).
- Lite-Hot cycle (+40°C to -18°C): ideal for soft heating preparations.
- Turbo cooling: chiller works continuously at the desired temperature; ideal for continuous production.
- Automatic mode including 10 food families (meat, poultry, fish, sauces and soup, vegetables, pasta/rice, bread, savory and sweet bakery, dessert, beverage fast cooling) with 100+ different preinstalled variants. Through Automatic Sensing Phase the blast chiller optimizes the chilling process according to size, quantity and type of food loaded to achieve the selected result. Real time overview of the chilling parameters. Possibility to personalize and save up to 70 variants per family.
- Cycles+:
- Cruise Cycle (Patented EP1716769B1 and related family) automatically sets the parameters for the quickest and best chilling (it works with probe)
- Proving
- Retarded Proving
- Fast Thawing
- Sushi&Sashimi (anisakis-free food)
- Chill Sous-vide
- Ice Cream
- Yogurt
- Chocolate
- Programs mode: a maximum of 1000 programs can be stored in the blast chiller's memory, to recreate the exact same high standard at any time. The programs can be grouped in 16 different categories to better organize the menu. 16-step chilling programs also available.
- MultiTimer function to manage up to 20 different chilling cycles at the same time, improving flexibility and ensuring excellent results. Can be saved up to 200 MultiTimer programs.
- OptiFlow air distribution system to achieve maximum performance in chilling/heating eveness and temperature control thanks to a special design of the chamber combined with high precision variable speed fan.
- Fan with 7 speed levels. Fan stops in less than 5 seconds when door is opened.
- 3-point multi sensor core temperature probe for high precision and food safety.
- 6-point multi sensor core temperature probe for maximum precision and food safety (optional accessory).

SkyLine ChillS Blast Chiller-Freezer 6GN1/1 30/30

- Pictures upload for full customization of cycles.
- Remaining time estimation for probe-driven cycles based on artificial intelligence techniques (ARTE 2.0 Patented US7971450B2 and related family) for an easier planning of
- Customizable pre-cooling and pre-heating functions.
- Automatic and manual defrosting and drying.
- Make-it-mine feature to allow full personalization or locking of the user interface.
- SkyHub lets the user group the favorite functions in the homepage for immediate access.
- MyPlanner works as an agenda where the user can plan the daily work and receive personalized alerts for each task.
- USB port to download HACCP data, share chilling programs and configurations.
- Connectivity ready for real time access to connected appliances from remote and HACCP monitoring (requires optional accessory).
- Trainings and guidances supporting materials easily accessible by scanning QR-Code with any mobile device.
- Automatic consumption visualization at the end of the cycle.
- Multi-purpose internal structure is suitable for 6 grids GN 1/1 (12 positions available with 30 mm pitch) 6 grids or trays 600 x 400 mm (12 positions availabe with 30 mm pitch) or 9 icecream basins of 5 kg each (h 125 x 165 x 360 mm).
- Performance guaranteed at ambient temperatures of +43°C (Climatic class 5).
- Working temperature from +90°C to +3°C in chilling mode or to -41°C in freezing mode.

Construction

- Built-in refrigeration unit.
- Environmentally friendly: R452a as refrigerant gas.
- Solenoid valve to automatically manage the gas pressure in the thermodynamic circuit.
- Main components in 304 AISI stainless steel.
- Evaporator with antirust protection.
- Motors and fan waterproof protected IP54.
- Seamless hygienic internal chamber with all rounded corners for easy cleaning.
- Removable magnetic gasket door with hygienic design.
- Ventilator swinging hinged panel for access to the evaporator for cleaning.
- Door stopper to keep the door open in order to avoid the formation of bad smells (kit available to be mounted on site, depending on preferred door hinge).
- Automatic heated door frame.
- No water connections required. Waste water can be plumbed into drain, but can also be collected in an optional waste container.

Sustainability

- Holding at +3 °C for chilling or -22 °C for freezing, automatically activated at the end of each cycle, to save energy and maintain the target temperature (manual activation is also possible).
- With SkyDuo the Oven and the Blast Chiller are connected to each other and communicate in order to guide the user through the cook&chill process optimizing time and efficiency (requires optional accessory)
- Human centered design with 4-star certification for ergonomics and usability.

SkyLine ChillS Blast Chiller-Freezer 6GN1/1 30/30 kg

D = Drain EI = Electrical inlet (power)

Electric

Supply voltage:

727730 (EBFA61TE) 380-415 V/3N ph/50 Hz

Electrical power max.: 2.7 kW
Heating power: 1 kW

Circuit breaker required

Water:

Drain line size: 1"1/2

Installation:

Clearance: 5 cm on sides and back. Please see and follow detailed installation instructions provided

with the unit

Capacity:

Side

Top

Max load capacity: 30 kg

Trays type: 600x400; GN 1/1; Ice Cream

Key Information:

Door hinges:Right SideExternal dimensions, Width:897 mmExternal dimensions, Depth:937 mmExternal dimensions, Height:1060 mmNet weight:175 kgShipping weight:185 kgShipping volume:1.28 m³

Refrigeration Data

Built-in Compressor and Refrigeration Unit

Refrigeration power at

evaporation temperature: -20 °C Condenser cooling type: AIR

Product Information (EN17032 – Commission Regulation EU 2015/1095)

Chilling Cycle Time (+65°C to

+10°C): 74 min
Full load capacity (chilling): 30 kg
Freezing Cycle Time (+65°C to
-18°C): 264 min

Full load capacity (freezing): 30 kg

Test performed in a test room at 30°C to chill/ freeze (\pm 10°C/-18°C) a full load of 40mm deep trays filled with mashed potatoes evenly distributed up to a height of 35 mm at starting temperature between 65° and 80°C within 120/270min.

Sustainability

Refrigerant type: R452A GWP Index: 2141 Refrigeration power: 2970 W Refrigerant weight: 1150 q

Energy consumption, cycle

(chilling): 0.0921 kWh/kg

Energy consumption, cycle

(freezing): 0.2253 kWh/kg
