

People who serve, products that solve.™

Flav-R-Savor Holding Cabinets with thermostatically controlled heat and humidity hold hot food at optimum serving temperatures longer than other units that only supply heat.

Extend your holding times considerably and improve the food quality that you ultimately serve as well. Food can be prepared well in advance of peak serving periods.

## FLAV-R-SAVOR® HOLDING CABINETS with HEAT & HUMIDITY control

**PORTABLE MODELS** 

Convenient and versatile food holding where it's needed. The combination of heat and humidity control ensures longer holding times and better food quality. Features a large digital readout and convenient controls for operator ease. These units are also stackable where space is limited for added versatility. Comes with high visibility tempered glass door for operator convenience and built to last with Hatco quality construction.
